

NAFFCOOL # 3500-Q

Hot Quenching Oil

NAFFCOOL # 3500-Q is a blend of highly refined paraffinic base oil with a comprehensive additive system. Specifically developed for specialists of heat treatment for carbon or low alloy steels where it is desirable to produce hardening of surface.

User benefits

- Superior thermal and oxidation stability
- Good sludge separation
- Minimize the risk of distortion and cracking

Physical Characteristic

Appearance	: Light Brown
Specific Gravity	: 0.89
Viscosity at 40°C, cSt	: 22
Flash Point COC, °C	: > 250

Applications

These oils are therefore preferred for hardening of gears, bearings, etc.
