

NAFFCOOL # 80SC ***Synthetic Glass Cutting Fluids***

NAFFCOOL # 80SC is oil free, specialty for glass cutting operations. This means that raw materials were chosen for their resistance to biological degradation thereby controlling the growth of fungus and bacteria. This product does not contain any sulphur, chlorine, nitrite, phenolic derivatives and heavy metals.

USER BENEFITS

- Superior cooling
- Good wetting and lubricity
- Increases tool life
- Superior surface finish

TYPICAL CHARACTERISTIC

Colour	Green
Specific gravity	1,01
pH	9,0
Stability	Excellent

APPLICATION

This product is recommended for glass cutting operations used directly not diluted.
